

# Drip or Trickle Irrigation

Sharing knowledge on the use and conservation of water for food production

## Type and Scale(s)

Low water-use,  
highly focussed  
irrigation

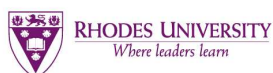

All Scales

## Description and Purpose

Water-saving.  
Puts water  
directly onto the  
plant root area,  
most useful for  
orchards and  
other long-term  
crops, but can  
also be used for  
vegetables.

## Other Factors

Low to medium  
technology,  
Medium skills  
and  
understandings,  
Medium cost,  
Medium to high  
maintenance
